

Types of Procurement Function

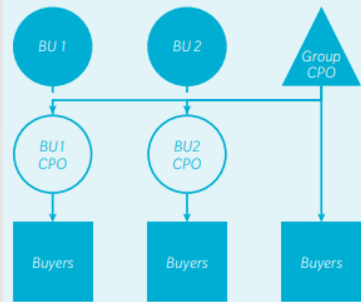

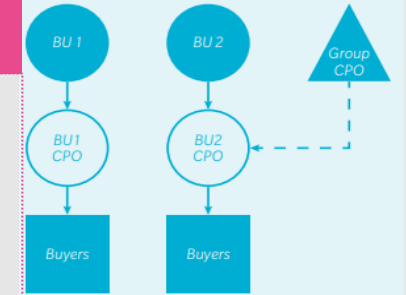

Decentralized Procurement

- No procurement function.
- Acting as buyers (admin staff) reporting to BUs.
- Coordination might/might not exist between BUs.

Coordinated Procurement

- Procurement function reports to BU.
- Group Procurement provides coordination & guidance.

Matrix Procurement

- All buyers report to Group Procurement, which co-arbitrates with BUs.
- Some buyers are hosted by BUs; some are shared.

Centralized Procurement

- All buyers report to Group Procurement
- Decisions for all Procurement strategy are taken centrally.
